Facade Project Manager

About the role

With over 45 years in the industry, these guys are one of NZ's market leading companies in aluminium solutions. From design, through manufacture and installation - it's all in their brief - and it's what they do well.
Right now, they are under pressure from constant growth within their business and due to this, they require a skilled Project Manager to join their Wellington team.

You will be;

- Providing assistance to the Operations Management team
- Taking responsibility for the Project Management of installation and installs of their products on site
- Meeting predetermined timelines and budget expectations, while achieving company standards
- Managing multiple projects and co-ordinating between design, manufacturing and delivery teams

RECRUITMENT

Skills and experience

You will need to have;

- Strong attention to detail and commitment to quality standards
- Excellent computer skills and proficiency with Microsoft Office Suite
- Excellent communication skills - written and verbal
- Outstanding customer service skills
- Strong leadership skills and relationship management
- A tertiary qualification and industry experience
- A strong commitment to Health and Safety standards

What you can expect

This is a full time permanent role with a strong pipeline of continued work. A competitive salary package will be negotiated with consideration for the candidates skills and experience. This is a great opportunity for someone looking to build on their career with a very rewarding company who like to up-skill and promote within their business.
